WHO WE ARE

Belshaw Limited is a leading producer of detergents, disinfectants and degreasers. Over a period of 33 years, we have supplied a considerable number of institutions with premium products that have solved their needs in a timely manner. We believe that until the final user of our products is satisfied, the sales process is not complete thus we esteem great customer service above anything else.

We aspire to be the best providers of home and industrial products and services in Ghana and beyond. We seek to make our products first choice in all sectors ranging from health to hospitality.

We know hygiene is very critical and thus we strive to maintain the highest standards in the most cost effective way. We go beyond the customer/supplier relationship and develop a true partnership with you. We supply quality products at competitive prices. Applying our unique industry knowledge to specific customer needs, we always offer the right product for any given situation.

WHAT WE DO

We manufacture a wide range of products which are produced in our state-of-the-art factory at Tema which include:

Liquid Detergents (different kinds for different purposes)
Disinfectants (ranging from preoperational antiseptic disinfectants to general purpose disinfectants)
Degreasers (special chemicals which remove oil, grease, grime and fat deposits)

We also supply special chemicals such as: Calcium Hypochlorite, Soda Ash, Ethanol, Toluene, PVP Iodine, Tar remover, Water treatment chemicals, Cooling tower chemicals, Demineralization chemicals, Fire-fighting chemicals, Chemicals for power generation among others.

WHY CHOOSE US?

We are unique in our market, as we own the whole supply chain from manufacturing through distribution, to after-sales service and support. This means we offer leading market value, without compromising on quality or service.

Our products are manufactured to the highest standards in the industry. We don't take quality for granted because we cherish our customers. For every cleaning problem, we believe there's a solution and therefore welcome the challenge to solve even peculiar problems.

At Belshaw, we listen to your exact needs and are able to customise products to meet and even exceed your expectations.

Get in touch today and enjoy the Belshaw experience.

OUR PRODUCTS | Detergents

BELPROS SUPERDETERGENT

A blend of fully biodegradable non-ionic and ionic surfactants. Active agents blended to give excellent performance over a wide range of dilutions.
It is bacteriostatically formulated.
